## PROFILE

React developer with 6+ years experience. Developed both mobile and web apps using HTML5, CSS, Javascript, React, React Native, Node js.

## EDUCATION

**B.Tech in CSE, DUIET, Dibrugarh University, Dibrigarh**

Aug 2014 – Jul 2018

CGPA – 7.3

## EXPERIENCE

**Trinity Life Sciences, React Developer, Bengaluru**

June 2024

Worked on React+Vite WebApp consisting of Dashboard using Data tables, SSO Authentication using MSAL, and File Viewer.

**Chainflux, Front-end Developer, Bengaluru**

Sep 2019 – May 2024

At Chainflux, I worked on React native apps, React Web Apps & Angular. Build apps with MERN stack and Blockchain (Ethereum, Web3, Solidity, Ether.js, Metamask).

Titled as Front-end Lead handling multiple projects.

**Unikwan, Front-end Developer, Bengaluru**

Oct 2018 – Sep 2019

At Unikwan, I started working on basic websites using WordPress. Moved on to build static websites. I was responsible for making the first mobile app, using React native delivered by the company. Developed web apps with React.

## PROJECTS

**Trinity Life Sciences, React Developer, Bengaluru**

Jun 2024 – present

Worked on **React+Vite** WebApp- an easy-to-use, searchable online platform that houses a proprietary database of reports consisting of dashboards using **ag-grid**, **material UI**, **react-query**, **SSO Authentication using MSAL**, and File Viewer **using react-pdf**.

### **Fujairah**

Sep 2019 – Nov 2019

Property selling/buying app with React.js and Bootstrap with Blockchain as platform. Developed Admin Dashboards, Traceability page with multiple user login views.

### **IFSCA- Gold Traceability**

Dec 2021 – Jan 2022

App to trace gold making with React.js webapp and React native app with Redux for IFSCA with blockchain as platform.

### **Saahas (Grid System)**

Jan 2020 – Mar 2022

Garbage tracing app for [Saahas Zero Waste – Waste Management & Consulting Services](#) with Blockchain as platform and MEAN stack. Handled both Frontend and Backend.

### **Get My Slice**

Aug 2019 – Jun 2020

An iOS and Android app for [GetMySlice](#), a data marketplace app with rewards on customer's daily data search using React native, firebase, notifications, Deeplinking, Microsoft Appcenter and play store publishing.

### **Bitpolo**

Apr 2020 – Nov 2021

A crypto exchange mobile app using React Native & Redux. Worked on Socket I/O, Charts, Optimisation and performance of the app.

### **Hindalco**

Dec 2020 – Apr 2021

Metal Scraps tracing system using React.js, Material UI, Redux with MongoDB, Node and Express and Backend. Handled both Front-end and Backend.

### **NSE Gold Tracing System**
